Customer:

If you are changing the original specifications of this art/order, please initial that you understand these terms of the agreement:

Digitizing is an intensive and complex process, and because embroidery requires a design to be recreated using straight lengths of thread, making an embroidered design match drawn art to a person's total satisfaction is not always possible. Minor changes and editing to make a sewn design better match the original art are considered normal and are performed as a part of the normal digitizing process. However, changes to the original art are usually impossible without starting the digitizing process all over. For this reason, any changes to original art will require a new digitizing fee.

Approved

I verify that the specifications set forth in this artwork are correct and are not subject to any further alteration without an additional art charge.
